REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of the School District of South Hampton:

It is a pleasure to submit my first annual report as Superintendent of your school. I have enjoyed my work with the professional and lay persons interested in the welfare of your children and I look forward to the forthcoming year with optimism and enthusiasm.

Because South Hampton is a part of the fastest growing, and one of the largest educational units in the State, I think it appropriate to mention a few of the problems that come with growth. These are needs that must be met by all of the school districts in the Union with South Hampton sharing in the expenses as well as the benefits.

A sub-committee of the Supervisory Union School Boards submitted a report to the Annual Budget Meeting, held last December, and recommended the employment of an additional secretary and an assistant to the Superintendent. The former has been included in the budget and will begin employment in July. The latter, because it is considered an "additional service", must be voted upon by each school district. For that reason, an article has been inserted in your School Warrant. The need for this person has been proven and I hope the Article will be voted upon favorably.

Another common problem, shared by all the districts in this Union, is the need for permanent office facilities for the Superintendent's staff. At the present time it is housed in temporary quarters that have neither adequate working area nor storage space. Representatives of each of the school boards have formed a committee to study the problem. It is my hope that a solution will soon be found.

Pending legislation, if voted affirmatively by the General Court, will provide additional funds for State Aid to Education. Among these proposals is a \$10.00 per pupil grant to each school district. Another measure would help defray the cost of transportation. I think that both of these items are worthy of your consideration.

Our Supervisory Union Classes continue their excellent work. Both groups of children have made much progress and the citizens of South Hampton are to be commended for their support of this progressive movement. Future plans call for the classes to be located in Hampton next year. This will ease the problem of transportation that has been noticeable during the current year.

The Barnard School has kept pace with other schools in the Union in providing improved educational facilities for the children attending it. This is a tribute to the School Board, the people they represent, and the staff of the school.

We have been fortunate in securing a staff of capable teachers for your school. Mrs. Amy Kimball, Principal, continues to be a dedicated teacher and a competent principal. Mrs. Sarah Silvernail, in her second year as Grades 1 and 2 teacher, demonstrates imagination and initiative in meeting the multiple problems inherent with her position. Mrs. Gladys Towns, teacher of Grades 6, 7, and 8, a newcomer to the staff, has capably filled the vacancy created by the resignation of Mrs. Marjorie Walton. All of the teachers have an intense interest in their students and it is my hope that they will remain with us for many years to come.

During the past year there have been improvements in both the instructional program and the physical facilities. Among the latter has been the installation of the so-called "panic bars" on the exits of the building. These devices make for improved entrance and exit, thus facili-

tating the passage of the children. The ground floor hallway was redecorated and new furniture installed in Mrs. Kimball's room. Both of these improvements help create a brighter atmosphere for the children. Thanks to the generosity of the Trustees of the Barnard School an asphalt tile floor was laid in the upstairs room. This, too, is a definite aid in creating a favorable atmosphere for learning.

Among the improvements in instruction was the introduction of Educational Television. South Hampton was one of the six districts in Supervisory Union No. 21 to embrace the advantages of this electronic adjunct to the classroom teacher. The programs are transmitted from Channel 2, Boston, Massachusetts, and provide a great deal of enrichment in the fields of art, music, social studies, and science. With the advent of Educational TV programs from Channel 11, Durham, New Hampshire, the students in the Barnard School will have the benefits of even more programs. I think that we can look forward to increased television in our public schools.

Schools with the multiple-grade classrooms have a unique problem and it is with only diligent study and hard work that full benefits of such a system can be derived. While modern educational philosophy would indicate that the disadvantages outnumber the advantages, nevertheless, we should strive to utilize the advantages that exist by seeking constant improvement.

There is a greater need for devices to assist the teachers in helping the students learn and work by themselves when the teacher is busy with another grade. Audio-visual material is of paramount importance in this situation and some of these items are programmed for purchase in the forthcoming year while some have already been purchased.

There is a need to program the curriculum offerings so the children moving from one room to another will follow progression of materials as outlined by the State

Department. This we are studying and, with the aid of the Helping Teacher, Miss Leota Whitcomb, we can look forward to accomplishments in this area.

This is especially valuable in South Hampton where the fluctuating enrollment of individual grades makes it necessary, on occasion, to realign the grade combinations in any single room. Without careful preparation it would be possible for a student to miss an entire portion of the necessary program.

It is the decision of the School Board to seek the services of a music supervisor for the children of the Barnard School. I am very much in favor of this action. Because it is considered an additional service, it is necessary to have this item included in a special article for the consideration of the voters. Because South Hampton does not need a full-time supervisor they would share this person with one or more of the other districts in the Union. This would reduce the cost of such a service. I am hopeful that the article will meet with your approval.

I would like to take this opportunity to thank all of the people who have helped me during my brief period as your Superintendent. The School Board, the Principal, the Teachers, and interested lay people have been most cooperative in their effort.

And, of course, the staff of the Superintendent's office, under the supervision of Miss Edith Hammond, Executive Assistant, have helped immeasurably through their untiring effort and loyal support. My predecessors, Mr. Roy W. Gillmore and Dr. Edward C. Manning, have laid both a firm foundation and created an inspiring challenge. I shall strive to continue the tradition of educational leadership established by them.

Respectfully submitted,

C. M. GREEN
